

BERNARD LECLAIR

Bernard Leclair's Bio for the position of Treasurer

Bernard has always felt that it is important to give back to community; it is something that was instilled in him from a very young age growing up on a farm in rural Manitoba by his mother. He has found time in his busy business career to give to youth through the Young Men's Adventure Weekend Society of British Columbia. He has held several positions with Landscape Manitoba Association including President. He looks forward to help in putting an amazing event this year.

In addition, he has served on the VPS board for the last 3.5 years as a Director and then as its Treasurer. I am running for one more term, as the things that I have set out still need to be fully implemented.

Things that we have accomplished are hiring a third party Bookkeeping firm, producing an overall Budget, proper filing system, amongst other things. Things left to implement are CashFlow projection tool and a complete document of processes for money management of the VPS.
